I love country living and have a strong passion for agriculture. I studied at the Muresk campus of Curtin University completing a bachelor of Agribusiness.

I have worked in several wheatbelt towns and settled in Wyalkatchem meeting my husband Graham. We run our family farm business with our two sons.

Since moving to the wheatbelt I have always enjoyed the sense of community and have always been involved in community groups and activities. I found by joining community groups and taking on office bearing positions I was able to learn new skills and meet and get to know the local community.

I believe we are custodians of our farmland and manage it with the intention of the next person enjoying the benefits. I also see our shire as a place for our future populations. We always need to be mindful of future trends and how we can keep our town and surroundings alive and thriving.
